## **DICAR P520 POLISH**

### **DESCRIPTION**

Ultra fine polish suitable for protecting and maintaining the high gloss level achieved after compounding.  
 It removes micro-scratches and holograms in dark paints.  
 It preserves surfaces from atmospheric agents and leaves long lasting high gloss shine.  
 It can be applied by hand, with orbital and polishers.

### **OTHERS CHARACTERISTICS**

Extremely easy to apply and remove  
 Water soluble  
 Odourless  
 It does not whiten plastic parts  
 Ecological  
 It does not contain silicones

### **APPLICATION METHOD**

- a) By Hand: Apply on the surface by wadding/microfiber, polish by circular crosswise movements. Let it dry for some minute and clean the surface by a microfiber cloth.
- b) By Polisher / Orbital: apply on wool pad soft or directly on the surface, few quantity of the product.
- c) Polish at low speed (max 1200) by circular crosswise movements. Let it dry for some minute and clean the surface by a microfiber cloth.

### **PROCESSES**

Step 1 analyse the superficial defect and conditions of the surface  
 Step 2 surface preparation  
 Step 3 choose polishing process

### **PACKAGING**

1 liter

### **BOX**

12 x 1
